The versatile Baldwin Professional Amplifier gives you all these playing pluses

CLEAN, CLEAR SOUND: Baldwin's crisp and sparkling clarity of sound results from specially designed speakers and solid state circuitry.

SOLID STATE CIRCUITRY: Completely transistorized design reduces amplifier weight, eliminates heat, minimizes component failure, and provides instant playing readiness.

SUPERSOUND: A patented Baldwin exclusive, Supersound provides five distinctively varied pre-set sounds available at the flick of a color-coded switch.

TREMOLO: Baldwin's tremolo produces distortion-free clarity. Separate controls for intensity and speed.

REVERBERATION: Exclusive Baldwin-built reverberation preserves tonal individuality and cleanness.

TONE CONTROLS: Individual Volume, Treble and Bass controls on each channel.

INPUTS: Two inputs on each channel so that four instruments can be used simultaneously.

JACKS: Extension speaker jack and color-coded jacks for remote control of tremolo and reverberation.

AND ALL THESE STANDARD CONTROLS, TOO: Off-on toggle switch, ground selector switch, jewel pilot light, power outlet for accessories, easy-to-reach fuse post.
